PROFESSIONAL SUMMARY

Results-driven Junior .NET Developer with 2 years of experience building and supporting enterprise and full-stack web applications using C#, ASP.NET Core, .NET, Blazor, Angular, React, TypeScript, SQL Server, and PostgreSQL. Experienced in developing and integrating RESTful APIs, troubleshooting complex issues, testing, debugging, and supporting applications throughout the Software Development Life Cycle (SDLC). Proficient with Entity Framework Core, Git, Swagger, Postman, and Agile development, with a strong commitment to delivering scalable, reliable, and user-focused software solutions.

TECHNICAL SKILLS

Programming & Development

- C#
- ASP.NET Core
- .NET
- Blazor
- Angular
- React
- TypeScript
- HTML, CSS, JavaScript
- RESTful API Development
- Entity Framework Core (EF Core)
- LINQ

Software Development

- Bug Fixing & Troubleshooting
- Application Testing & Debugging
- Requirements Analysis
- Technical Documentation
- Software Maintenance & Support
- UI/UX Collaboration
- Agile Development
- JWT Authentication
- Material UI (MUI)
- SDLC (Software Development Life Cycle)

Tools & Technologies

- Visual Studio
 - Visual Studio Code
 - Git
 - Swagger
 - Postman
 - Figma
- ### Databases
- SQL Server
 - PostgreSQL
 - SQL

WORK EXPERIENCE

IT Support / Junior .NET Developer

IT Outsource Freelancer, Philippines

August 2023 – July 2025

- Developed enterprise web applications using C#, ASP.NET Core, Blazor, Angular, TypeScript, and SQL.
- Built and integrated RESTful APIs, optimized application performance, and resolved production issues through debugging and testing.
- Diagnosed and resolved software defects through debugging, testing, and root cause analysis.
- Collaborated with clients and Agile teams throughout the software development lifecycle.
- Assisted in deployment, maintenance, and technical documentation.
- Used Git, Visual Studio, Swagger, Postman, and Figma during development.

PROJECTS

CG Social Platform

- Developed a full-stack social media web application using ASP.NET Core Web API, React, TypeScript, Material UI, and PostgreSQL.
- Implemented JWT Authentication, image uploads, user profiles, posts, comments, likes, and RESTful APIs.
- Designed responsive user interfaces and collaborated using Git, Swagger, Postman, and Figma throughout development

UI/UX Design & Collaboration

- Created wireframes and interface prototypes using Figma.
- Collaborated with developers and stakeholders to improve application usability and user experience.

EDUCATION

Bachelor of Science in Information Technology

Pampanga State University

Graduated: 2026
